

## **Project Manager / Project Architect | Revit Required**

### **About LH Architects**

LH Architects is a technology forward architecture and interior design firm built for modern project delivery. We believe great design is only as strong as the process behind it, so we pair thoughtful, creative work with disciplined execution. We are BIM first and Revit driven, using smart workflows and modern tools to coordinate better, move faster, reduce rework, and make the experience smoother for clients, consultants, and project teams.

We partner with developer and owner clients across South Florida on multifamily, mixed use, commercial, and other high impact projects. As we grow, we are looking for Project Managers and Project Architects who want real ownership, visibility, and momentum, not just a production seat. If you enjoy leading teams, running coordination, owning schedules and deliverables, and being a trusted voice with clients, you will thrive here.

What makes LH different is our culture: positive, collaborative, and genuinely fun, while holding high standards. People are trusted early, supported by a strong team, and given real runway to grow into leadership as the firm scales.

---

### **The Role**

As a Project Manager / Project Architect at LH Architects, you will play a key leadership role managing high visibility projects from early design through construction. Well qualified candidates are confident leaders and strong technical professionals with skills in planning, team building, communication, zoning and building code research, materials and assemblies, building systems coordination, documentation, and construction administration.

---

### **Responsibilities**

- Lead and support the project team through multiple stages of project development and construction
- Manage delivery of project documents from SD through DD, CDs, permitting, and CA
- Coordinate consultants (civil, structural, MEP, landscape, etc.) and integrate deliverables into the drawing set
- Drive project communications with clients, consultants, and internal team members
- Maintain strong QA QC standards for accuracy, constructability, and clarity across all deliverables
- Research zoning and building code requirements, translate them into clear direction, and verify compliance
- Support construction administration and correspondence including RFIs, submittals, field observations, punch lists, and closeout
- Participate in project pursuits, proposals, presentations, and firm growth initiatives
- Help improve Revit standards, templates, and BIM workflows as we continue to scale

---

## What We Look For

- 7 years minimum experience (5 plus may be considered for exceptional candidates)
- Project Management / Project Architect experience preferred
- Team lead experience preferred
- Autodesk Revit proficiency required.
- Experience with modeling and rendering tools such as Advanced Revit, Autodesk Construction Cloud, Navisworks Manage, Bluebeam Revu, Dynamo for Revit, Rhino plus Grasshopper, Lumion, D5 Render, Enscape, Twinmotion, SketchUp and Adobe Creative Suite (InDesign, Photoshop, Illustrator) for presentations, Microsoft 365 (Excel, Outlook, Teams) for coordination.
- Procore familiarity for CA workflows in the field: RFIs, submittals, drawings, and coordination
- Autodesk Forma for early stage planning and performance analysis, connected with Revit workflows,
- TestFit for fast feasibility and layout iteration, especially multifamily and mixed use
- Minimum 4 year college degree from an accredited school of architecture required
- Graduate degree is a plus
- Licensed Architect preferred, or a demonstrated path toward licensure
- Proven track record delivering successful projects in a reputable architectural firm
- Ability to manage concurrent projects in various stages of development with strong prioritization
- Strong management and mentorship skills
- Strong presentation and communication skills, including leading meetings with consultants and internal teams
- Ability to collaborate on large teams and perform well under deadlines
- Applicants must be authorized to work for any employer in the U.S. We are unable to sponsor or take over sponsorship of any employment visa at this time

---

## Our Culture

We take our work seriously and keep the environment positive, creative, and fun. We are a collaborative, high standards team that communicates clearly, supports each other, and moves quickly. You will have meaningful responsibility, direct access to leadership, and real opportunity to grow as the firm scales. If you are entrepreneurial, organized, and excited to help build something special, LH Architects is the place to do it.
