

Architectural Designer I (Revit Required)

About LH Architects

LH Architects is a technology forward architecture and interior design firm built for modern project delivery. We combine thoughtful design with disciplined execution to create buildings that are beautiful, buildable, and efficient. Our team is BIM first and Revit driven, using smart workflows and modern tools to coordinate better, reduce rework, and make the entire process smoother for clients and consultants.

We work with developer and owner clients across South Florida on multifamily, mixed use, commercial, and other high impact projects. We are growing quickly and looking for an early career designer who is eager to learn, contribute, and grow with a firm that is scaling.

What makes LH different is our culture. We keep it positive, collaborative, and fun while holding high standards. You will be supported, mentored, and trusted with real responsibility as your skills grow.

As an Architectural Designer I at LH Architects

This role is ideal for someone who is motivated, detail oriented, and excited to build strong technical skills in a BIM first environment. You will support project teams across multiple phases, strengthen your Revit and documentation capabilities, and contribute to design studies and client deliverables under the guidance of project leaders.

Responsibilities

- Support project teams through schematic design, design development, and construction documents
 - Assist with Revit modeling, drawing production, sheet setup, and document organization
 - Help develop plans, elevations, building sections, and details under direction of the project team
 - Coordinate markups and revisions and participate in internal QA QC checklists
 - Assist with consultant coordination and drawing set integration as needed
 - Support design studies, client presentation graphics, and visual packages
 - Produce diagrams, 3D views, and basic renderings as needed
 - Assist with research for code, zoning, materials, and product selections
-

What We Look For

- Bachelor of Architecture degree or Master of Architecture degree
 - Up to 4 years of post graduate professional experience
 - Strong Autodesk Revit skills required; working knowledge of AutoCAD and Microsoft Office preferred
 - Knowledge of modeling and rendering programs such as Revit, Bluebeam Revu, Lumion, Enscape, Twinmotion, SketchUp and Adobe Creative Suite (InDesign, Photoshop, Illustrator) for presentations, Microsoft 365 (Excel, Outlook, Teams) for coordination.
 - Understanding of architectural technology and production documentation fundamentals
 - Basic understanding of code and regulatory requirements and constructability concepts
 - Strong design and visualization skills with attention to detail
 - Strong communication skills and ability to collaborate with team members and consultants
 - Ability to juggle multiple tasks, collaborate on teams, and work well under deadlines
 - Registered or pursuing registration preferred; LEED AP is a plus
 - Applicants must be authorized to work for any employer in the U.S. We are unable to sponsor or take over sponsorship of any employment visa at this time
-

Our Culture

At LH Architects, we take the work seriously and keep the environment upbeat, creative, and supportive. You will be part of a collaborative team that communicates clearly, helps each other succeed, and celebrates growth. If you are motivated, curious, and excited to build skills quickly, this is a place where you can grow fast and do work you are proud of.
